

E-INVOICING SOLUTIONS

WEB FORM

INTEGRATED

LOW VOLUME INVOICES

Designed for businesses that send a low volume of invoices per year. It enables users to quickly create and submit invoices online, without any messy paperwork. Tungsten Network guarantees delivery of your invoice to your customer within hours, allowing them to efficiently process your invoice and make prompt payment to you.

No annual subscription

52 free transactions per year
(replenished annually)

Additional transactions can be purchased online. [Click here for pricing.](#)

HIGH VOLUME INVOICES

Designed for organizations that send a high volume of invoices per year. It offers a fully automated process that allows to extract invoice data directly from your billing system and delivers it directly into your customers' finance systems. We process, translate, enrich and validate the data before delivering your invoice directly to your customer.

Standard MasterMap

Using our pre-defined file format
ANSI X12 (810), EDIFACT, CSV-ABC, CSV Single Line, IDOC fixed length, IDOC XML, CXML, XML UBL, Simple XML

Annual subscription

520 free transactions per year
(replenished annually)

If you do not have the resources to provide Tungsten Network the information needed in our pre-defined format, our team of experts will help you create a custom map.

Annual subscription + 50%
